To Whom It May Concern:

Ready 4 Kits is committed to consumer product safety and compliance throughout our line. In an effort to maintain compliance over the years, Ready 4 Kits has implemented several safety protocols which are updated on a regular basis to ensure product and consumer safety. These protocols are implemented in our manufacturing facility and Ready 4 Kits also requires that our suppliers follow uniform safety procedures with regard to product quality and compliance to ensure that our kits meet both local, and US Federal standards for consumer product safety.

In order to keep our commitment to product safety compliance Ready 4 Kits has implemented specific procedures that pertain to California's Proposition 65, commonly known as the Safe Drinking Water and Toxic Enforcement Act of 1986. Since 1986 the list of Proposition 65 Chemicals has expanded to include over 750 substances determined by the State of California to cause cancer, birth defects, or other reproductive harm.

Proposition 65 requires that companies give a "clear and reasonable warning" to consumers prior to knowingly or intentionally exposing them to harmful levels one or more of the 750 chemicals listed by the State of California's Proposition 65. Ready 4 Kits has documented that all of our inks used to decorate our kits are lead-free and passes Proposition 65 requirements as defined by the State of California.

Safe harbor limits for all other materials present in our products have not been fully established by California Proposition 65. All products intended for distribution in the State of California should be marked with a Proposition 65 warning. In an effort to comply with Proposition 65 Ready 4 Kits has prepared such labels and any customer may request such labeling be applied to their order at the time their order is placed. When requested the Proposition 65 label will be inserted into each kit and will read as follows:

" California Law Requires this Warning: This product contains a chemical(s) known to the State of California to cause cancer, birth defects, or other reproductive harm."

Please refer to our 2012 catalog, or visit our website at www.ready4kits.com to view more information regarding the Proposition 65 regulations, additional fees for labeling, and Ready 4 Kits commitment to safe practices for product compliance. If you have any specific questions regarding this information, please contact our Product Safety Division at safety@ready4kits.com.

Sincerely,

A handwritten signature in black ink that reads "Thomas Migneault".
